

NUDURA Project Profile

First Citizens National Bank - New York, United States

FAST FACTS

- Single Story banking facility with drive through capability.
- 4,000 square feet of floor area with 2880 square feet of gross wall area.
- 12' high walls on top of frost walls.
- Exterior load-bearing walls built with NUDURA[®] 6" Forms.
- The heating and cooling costs reflected enough savings that both the builder and bank owner are now building future banks and residential developments with NUDURA.
