

NUDURA Project Profile

Joseph Warren H.S. - Bowling Green, Kentucky USA

FAST FACTS

- NUDURA provided a large number of benefits to Joseph Warren School. By Utilizing NUDURA the sound reducing capabilities provided sound dampening in the gymnasium, cafeteria, music media centre and between classrooms to ensure the learning environments were maximized for students. The school combines both a middle school and high school, the designed called for large spanning radius walls
- Joseph Warren used products that worked with the NUDURA Wall system to further energy efficiency. The school utilizes a super insulated roof system, geothermal, light and air occupancy sensors to help reduce the amount of energy that is consumed.
- NUDURA provided superior speed of construction allowing the building to be constructed during winter and other inclement weather.

PROJECT STATISTICS

Location:

Bowling Green, Kentucky USA

Type:

Educational

Size:

332,979 sq. ft

CONSTRUCTION TEAM

General Contractor:

D.W. Wilburn

ICF Installer:

Marcum Engineering

Architect:

Sherman-Carter-Barnhart

ICF System:

NUDURA Inc.
