

NUDURA Project Profile

Hilton Garden Inn - Lewisville, Texas

FAST FACTS

- Six storey hotel with 25,000 sq ft conference center
- Contractor: A & M Construction
- NUDURA 8" Forms were used on the first two floors and 6" above to complete the structure
- Floor type: Hollow core concrete floor slabs
- Walls were built staggered between two halves of project so building process was continuous

"The job was secured by demonstrating NUDURA construction to be cost competitive to CMU while reducing the construction time and providing multiple operating benefits." Randy McGuffee - Futurestone
