

LOW EXPANSION FOAM

APPLICATIONS

Use NUDURA® Low Expansion Foam to:

- Glue the 1st course to the footing
- Shim low spots
- Seal around service penetrations
- Seal around doors and windows
- Replace the insulation in the electrical wiring channels
- Fill miscellaneous holes
- Fix a broken form
- Plus many, many more job site applications

Every NUDURA® job should use a case of NUDURA® Low Expansion Foam.

SUPERIOR PERFORMANCE

- Easy to install and remove collar, and fits all guns
- High Yield – tested to yield up to 70% more than other name brands
- Low Expansion
- Extended 18 month shelf life
- Formulated to be gunnable in low temperatures (to 5°C/40°F)
- Contains no CFC's or HCFC's

NUDURA® Low Expansion Foam is specially formulated to save the builder time and money when building NUDURA® Walls.
