

# You're Invited: School Summit Series

## High-Performance Construction for K-12 School

Join us for our Coppell, Texas event focused on the unique needs of K-12 school administrators, district officials and architects specializing in educational facilities. Gain the knowledge, tools and connections needed to create and maintain top-tier school environments that are safe, resilient, sustainable and inspiring.

### When & Where

**May 7 & 8, 2025**

**Tremco University**  
611 S. Royal Lane, Suite 190  
Coppell, TX 75019

RSVP today and  
secure your spot!

#### These are just a few event highlights:

**Witness** success stories of schools and public safety buildings that have achieved net-zero energy usage, disaster resilience, sustainability targets, and easy, cost-effective maintenance goals

**Learn** from industry experts about innovation in carbon reduction, building methods, materials and strategies that enable schools to achieve net-zero

**Discover** how A/E teams overcame challenges during their construction projects while delivering quiet and innovative learning environments

**Experience** the ICF environment with visits to local schools and public safety buildings that have reaped the benefits

**CEUs** **Course Title: High-Performance Construction for K-12 Schools**  
5 AIA LU/HSW credits
